School closures due to coronavirus have affected at least 55.1 million students in the United States. More than 30 states have closed schools for the rest of the academic year. Join Johns Hopkins clinicians, public health preparedness experts, and school health experts as they discuss the public health rationale for closing schools, what policymakers and school leaders are grappling with as they decide how to re-open, and hear about innovative ways that school health programs can help fill in health gaps for kids during school closures.

Speakers

Tina L. Cheng, MD, MPH
Pediatrician-in-Chief, Johns Hopkins Children's Center

Eric Toner, MD
Senior Scholar, Johns Hopkins Center for Health Security

Katherine A. Connor, MD, MPH
Medical Director, Rales Health Center
