

# LIVING AND LEARNING WHEN COVID-19 IS STILL AROUND...

## Take precautions to protect your student and family:

**Test.** Keep at-home test kits on hand in case of symptoms or an exposure to COVID-19. Find free at-home tests and testing centers near you [HERE](#) or scan the QR code.

Scan me

**Stay home.** Keep your child home from school if they have symptoms or a positive test. Current CDC guidelines are to stay home for 5 days after a positive test and to wear a mask for 5 days afterwards. **Don't forget to let your child's school know why they are out so their absence can be excused.**

Scan me

**Mask up!** If your child has symptoms of any kind of respiratory illness, has been around others with symptoms, or will be around someone at high risk for severe COVID-19, they should wear a mask. Find free high-quality masks near you [HERE](#) or scan the QR code.

If you have questions or need advice about COVID-19, how to stay up to date with vaccines, or any other illness, contact your child's healthcare provider.

Let's work together to keep kids safe, healthy, and in school.
